SUMMARY

Assistant Manager – Projects with 4+ years of experience across Industrial IoT (IIoT), Industry 4.0, ERP integration and manufacturing automation. Skilled at gathering business requirements, preparing URS/FRDs, managing cross-functional stakeholders and evaluating technology vendors to deliver digital-transformation initiatives. Combines hands-on technical expertise with business acumen through an MBA in Business Analytics.

EXPERIENCE

Assistant Manager – Projects

Suja Shoei Industries Pvt. Ltd.

Nov 2024 – Present Chennai

- Lead Industry 4.0 and digital-transformation initiatives across manufacturing operations.
- Gather business requirements and translate them into functional and technical requirements.
- Drive M2M data-collection and ERP-integration projects for real-time manufacturing visibility.
- Prepare URS, feasibility studies, technical proposals and management presentations.
- Evaluate IoT, MES, OEE, robotic-automation and vision-inspection solutions and vendors.
- Track project scope, schedules, risks and implementation milestones.

Project Engineer – Firmware

Marlensoft Pvt. Ltd. (A unit of Kern & Sohn GmbH)

Feb 2022 – Mar 2024 Chennai

- Developed embedded firmware for industrial and IoT applications and precision instruments.
- Gathered product requirements and authored user manuals, test plans and installation docs.
- Coordinated with international suppliers and internal teams to deliver end-to-end products.
- Analyzed test results to root-cause failures and ensured regulatory compliance.

EDUCATION

MBA – Business Analytics

SASTRA Deemed University, Tanjore

2023 – 2025 CGPA 8.5

B.E. – Electronics & Communication Engineering

St. Joseph's Institute of Technology, Chennai

2017 – 2021 CGPA 7.42

KEY ACHIEVEMENTS

Led Industry 4.0 Rollout

Spearheaded Industry 4.0 and automation initiatives across manufacturing operations.

Enterprise URS & Documentation

Prepared URS and technical documentation for enterprise automation projects.

Global Vendor Collaboration

Collaborated with international automation suppliers and technology partners.

National Robotics Competitions

Participated in multiple state- and national-level robotics competitions.
